RE: M/057/002 Reclamation Contract Mine Name Change

Dear Lynn,

Great Salt Lake Minerals Corporation (hereafter referred to as GSL) respectfully requests to change the name of the mine from Little Mountain to GSL.

GSL's operation has expanded to include borrow pits at Promontory Point and further west at Strongs Knob so the reference to Little Mountain no longer describes the current operation.

The recent name change from IMC Kalium Ogden to GSL also reflects name recognition in the marketplace of preferred products produced by GSL.

Thank you for consideration on this matter,

MARK
